

# ПРИНОСИ

## ПРИНОСИ

В изработването на материалите, представени в по-ранните издания на този документ участваха много хора и институции. Имената им са изброени по-долу, като със звездичка са обозначени тези, които участваха в съставянето на първоначалната редакция на дефинициите. Сред тях е и името на д-р А. Жабленски, бивш Главен медицински експерт, Отдел за психично здраве, СЗО, Женева, който бе отговорен за координирането и редакционните аспекти на този проект, до неговото напускане на СЗО през месец август 1986 година. .

Една от редакциите на този документ (юнската версия от 1987 година) бе широко използвана за полеви изследвания, проведени в 195 центъра из целия свят. Работата на тези центрове бе съгласувана с помощта на 17 координиращи центъра на полевите изследвания, разположени в Орхус, Александрия, Бангалор, Пекин, Кампинас, Хавана, Ибадан, Любек, Люксембург, Мадрид, Москва, Неапол, Нотингъм, Роквил, София, Токио-Нагасаки и Уелингтън. Пълният списък на лицата, взели участие в полевите изследвания ще бъде публикуван заедно с резултатите от изследванията.

Бележките, писмените допълнения и препоръки, получени от редица експерти, бяха от съществено значение за изработването на този текст. Изказваме дълбока признателност за тяхната подкрепа, приноси и съвети.
